

Restaurant

The restaurant is created from the old basement cellars, face on to the two courtyards on the side of the Villa, and enjoy direct access and views of the parks surrounding the entire complex.

The brick vaulted area of the small restaurant maintains the same atmosphere as the original setting, and is tempered and enhanced with old Eastern furnishings, offering diners the flavours found in the fresh produce from the area, all irreplaceable ingredients in the preparation of the best regional dishes and faithful interpretations of local cuisine.

The wine cellar holds a selection of prestigious labels, offering wines produced in the renowned surrounding vineyards and selected from the best cellars in the area. This atmosphere of elegant simplicity and quality therefore provides the ideal framework for a restful interval in which to catch your

breath, or conduct a discreet business meeting.
